Welcome to the August edition of our club newsletter. Just as we thought the virus was getting better and all of a sudden it got worse.

With very few things going on that is safe to attend at least we can go for a cruise and visit with each other on the CB's.

With extra time on my hands I am going to convert my '76 corvette headlights from vacuum operated to electric operated. Has anybody done this before as I might have some questions I need answered? The kit says it is the same motor used in the C5 corvette headlight system. It also says how easy this is to do.

Is there anybody else trying to do something unusual that the members might be interested in hearing about?

Thanks to Janice for setting up a week night dinner out and a weekend dinner out or just a cruise which ever you prefer to do.

Next meeting date to be announced.
